Join this speedboat excursion for the chance to swim with two of the ocean's most incredible creatures.

Dolphin Safari

Imagine sitting at the helm of a boat, dipping your hands in the sea as the vessel cuts the water's surface. Suddenly, you are surrounded by a pod of dolphins, curiously playing around the boat and jumping out of the water on all sides. You snap the perfect picture as two spring out of the water, suspended in the air with a classic Maldivian sunset behind them.

This can be a reality on the Dolphin Safari, a dhoni excursion that allows you the chance to see dolphins that frequent the waters around Lily Beach. Both spinner dolphins (as the name suggests, these dolphins are very playful) and bottlenose dolphins live in the South Ari Atoll, and can often be sighted at sunset as the dolphins are returning to the atoll.
