Commune with nature as you wander through the lush landscape on a winding pebble path on your way to rediscover inner peace at The Spa.

Organic Earth and Vibrant Sea – these inspiring themes are at the core of our Discover Nature spa philosophy. They provide a unique approach to health and wellness by combining the healing principles of the East and West and integrating them with the 50 years of skincare experience of Thalgo, the undisputed expert in Marine Intelligence. The Spa caters to your every whim and desire.

A pioneer in scientific marine research, Thalgo Laboratories, France, creates authentic and effective cosmetics and innovative personalised treatments from the power of the oceans. The sea is a natural source of beauty and has an immense reservoir of life with over 50,000 aquatic species and 25,000 algae. Of these, fewer than 30 species are used today. By taking nourishment from the ocean, algae concentrate the properties of the marine environment up to 10,000 times. Algae can contain 1000 times more iodine, 100 times more calcium and 10 times more magnesium and copper than a terrestrial plant. By extensively using algae, sea minerals and plant extracts, Thalgo skincare products are concentrates of marine effectiveness. Products are created according to stringent standards of performance and safety, and offer the peak of skincare excellence.

Harnessing the powerful richness and efficiency of the marine universe, Thalgo offers a broad range of innovative treatments for the face and body. Indulge in the personalised advice and expert hands of our beauty therapists, for an unprecedented treatment experience and the promise of lasting, visible results from the very first session.

Expert diagnosis, exclusive massage techniques, divine textures and enchanting fragrances – our comprehensive massage therapy menu ensures a truly holistic and tailored approach to your wellbeing. A specific focus on the ancient traditional healing practices of Ayurveda is complemented by traditional therapies from Chinese medical practitioners and Maldivian healers, who possess valuable knowledge passed down through generations. Immerse yourself in an innovative yet classical spa treatment or be pampered in our Sea Shore Spa Pavilion.

Your wellness journey does not end with beauty treatments and massages. Create balance between body and mind through relaxing yoga sessions conducted by our compassionate and highly qualified yogi.

Since the body is relaxed, skin regains its ideal thickness, muscle cramps and joint stiffness are relieved, and localised fat is softened and made easier to eliminate. An ideal prelude to additional treatments, the Marine Prelude incorporates sea salts and marine mud from the Dead Sea. An included soothing scalp massage during the wrap enhances the experience.

Red algae extract and butcher's broom enable the skin to regain its softness and radiance. Active ingredients are more easily absorbed, leaving the skin healthier and perfectly prepared for any treatment product.

Ayurvedic

Therapies

Whether you are here to detoxify, energise or heal your soul, our Ayurvedic therapies offer solutions for overcoming obstacles and discovering within yourself methods for renewal. All roads lead to one common place – a state of peace, health and wellbeing.

Ayurveda is the Indian system of alternative medicine and is more than 5000 years old. It uses natural products, mainly of plant origin, for healing. Ayurveda aims to enhance health, prevent illness and rejuvenate. According to Ayurveda, health is defined by a balance between body, mind, senses and spirit. Ayurvedic therapies heal the mental and physical discomforts arising from a busy and fast-paced modern lifestyle. These therapies hold limitless healing benefits.

After a personal consultation with our resident Ayurvedic doctor, he will recommend therapies specific to your needs, and in harmony with your constitutional dosha, to stimulate and enhance your mind-body relationship.

Indulge in our selection of healing therapies and let ancient wisdom be your guide.

Ayurvedic Consultation

Bring balance back to your mind and body with a consultation with our resident Ayurvedic doctor. In the Ayurvedic system, everything on this planet – including our bodies – consists of five elements: earth, water, fire, air and space, or 'ether'. Ayurveda groups the five elements into three basic energies, or doshas: Vata, Pitta and Kapha. Each of us has a unique combination of these doshas, which determines our constitution (Prakruti). Our Ayurvedic doctor will prescribe therapies and provide lifestyle recommendations according to your dosha, medical conditions and personal needs, customising your spa journey and putting you on the path to optimal health, balance and happiness.

Abhyanga Massage **Herbal Oil Massage**

Abhyanga is performed with oils infused with relaxing Ayurvedic herbs, which have excellent benefits for the skin. This massage therapy is soothing and gentle, causing your body to deeply relax. It also improves appetite, aids sleep and releases built-up stress, tension and body aches.

Ayur Shakti **Four-Hands Massage**

Unwind and enjoy a feeling of floatation with this blissful synchronised experience that is more than a massage. Two of our skilful therapists work together seamlessly, transferring positive energy that puts you in a state of ultimate relaxation. The massage uses a very potent Indian oil created by combining more than 40 herbs, such as Sida Rhombifolia and Withania Somnifera, which is anti-inflammatory; nourishing; immune-boosting; anti-ageing; and beneficial for skin tone, complexion and blood circulation. Most importantly, it balances the energies of air, fire and water.

Shirodhara

Continuous Warm Oil Stream Over Third Eye and Hairline, Full-body Herbal Oil Massage

Enliven your senses and awaken your spirit with an Abhyanga massage designed to balance your body's energy. Float into sublime relaxation as our signature Ayurvedic herbal oils flow gently over your forehead, also known as the 'third eye'. The flow of the warm oil creates a balancing effect in the deepest recesses of the brain and induces a blissful state of consciousness. Shirodhara helps to heal insomnia, headaches (especially migraine), mental tension and stress-related discomforts. This treatment is most effective as a course of three individual sessions. There's a special discounted price for the course.

This treatment is most effective as a course of three individual sessions. There's a special special discounted price for the course.

Acupuncture

Cupping Therapy

A powerful therapy that combines heat and suction to mobilise blood flow. Benefits of this technique include reduced pain and inflammation, enhanced cardiovascular health and detoxification.

A take-away cupping set is included, allowing you to continue the practice back home.

Gua Sha

A traditional skin scraping with anti-inflammatory effects, this treatment aids in the healing of body aches, stiffness, chills and fever. After lubricating the area, a blunt instrument is used to scrape the body's meridians or acupuncture points.

Tui Na Massage

Add-On

A multimodal bodywork practice that combines massage, acupressure and other forms of body manipulation. Pressure is applied to acupoints, meridians and groups of muscles or nerves, and blockages that prevent the free flow of 'qi' are removed. This leads to improved health and vitality.

Moxibustion

Add-On

The powers of heat and herbs are combined for this treatment. A herbal stick is ignited and indirectly applied to acupressure points to stimulate the flow of vital 'qi' energy. This action relieves body weakness, aches, frozen shoulders and menstrual pain, and it promotes wellbeing.
